

ASX Announcement: 29 September 2021

## Gidgee Project Farm-In Condition Achieved

Gateway Mining Limited (ASX:GML) (**Gateway** or **Company**) is pleased to provide an update in relation to its strategic Earn-In Agreement with Golden Mile Resources Ltd (ASX:G88) (**Golden Mile**) that significantly increases the footprint of the Company's Gidgee Gold Project in Western Australia to over 1,000km<sup>2</sup> as announced on 23 July 2020 (Figure 1) (**Earn-In Agreement**).

The Earn-In Agreement was conditional upon Golden Mile obtaining appropriate exemptions under the Mining Act 1978 (WA) in relation to the expenditure conditions on the tenements comprised in the Agreement (**Condition Precedent**).

The Condition Precedent has now been met, granting Gateway the right to acquire up to an 80% interest in the Gidgee Project (refer to ASX announcement 23 July 2020).

## NEXT STEPS

Gateway has recently accelerated exploration efforts on the Earn-in Agreement tenure with the collection of a series of core geophysical datasets, heritage and environmental studies and Program of Work (PoW) applications for future drilling.

A comprehensive new ground gravity survey (Figure 2) and airborne magnetic data compilation have now been completed. These datasets will be used to provide context to existing anomalies and form the basis for the generation of a new series of exploration targets. Gateway plans to follow a disciplined and systematic approach to exploration, similar to that pursued over its core Eastern Montague Domain tenements, with the continual development and field testing of identified gold targets.
